

## **Frequently Asked Questions In-Use Off-Road Diesel Vehicle Regulation**

### **Two-Engine Scrapers**

**Q – What if I own a twin engine scraper? How do I report vehicles with two engines that provide motive power?**

A – Per section 2449(f) of the In-Use Off-Road Diesel Vehicle Regulation, vehicles with two engines that provide motive power will receive two Equipment Identification Numbers (EINs). Since twin engine scrapers are separable and both engines provide motive power, they must be reported as two separate vehicles so that each engine will have an EIN assigned. The scraper must be labeled so that both EINs are on the starboard (right) side of the vehicle, but will stay with the appropriate engine if separated. For more information on how to report vehicles with two engines, see our DOORS User Guide at:  
<http://www.arb.ca.gov/msprog/ordiesel/documents/doors/twoenginevehicle.pdf>.

*While this document is intended to assist fleets with their compliance efforts, it is the sole responsibility of fleets to ensure compliance with the In-Use Off-Road Diesel Vehicle Regulation.*
